# Requirement Document

MLM PLAN - HomePage:

1) Top Banner - Need to set an intro video on the top banner of the homepage, which will be given by the client! It will be easy if we have an intro video upload/modify/delete section for this intro video banner part for the homepage!

2) Announcement - Need to set floating announcements (Moving from left to right) below the banner, which is displayed on the homepage.

3) Menu Section on Homepage:

3.1) Official Website Icon - Upon clicking on this icon we need to redirect the users to the official site of ours.

3.2) Lending Icon - This icon on the homepage displays the basic/into details of the Lending plans in the PDF and video format. (Need to dynamically change the PDF and video from the admin panel.)

3.3) Mining - This icon on the homepage displays the basic/into details of the Mining plans in the PDF and video format. (Need to dynamically change the PDF and video from the admin panel.)

3.4) Staking - This icon on the homepage displays the basic/into details of the Staking plans/returns in the PDF and video format. (Need to dynamically change the PDF and video from the admin panel.)

3.5) Audit Report - The client will give the audit report and upon clicking on this homepage icon the users will have to view/download the admin attached audit report.

3.6) Roadmap, Whitepaper - The client will give the roadmap, whitepaper and upon clicking on this homepage icon the users will have to view/download the admin attached audit report.

3.7) Community - The client will give the social media link and upon clicking on this community homepage icon the users will have to be redirected to the admin attached social media platform.

3.8) Customer Support - Upon clicking on this icon, the users will be redirected to a chat. Where users can interact with the customer support team or admin team to get their queries solved on the chat.

3.9) Games - The Client will provide the game (i.e.Casino Games) and we need to integrate that game on the homepage. Suppose if a user clicks the Games icon then the user will have to be redirected to the game that we have integrated on the homepage.

3.10) NFT - The client will provide the input for NFT and we need to integrate that on the NFT homepage icon.

3.11) Crypto Lottery - The client will provide the input for Crypto Lottery and we need to integrate that on the Crypto Lottery homepage icon.

3.12) Refer - After clicking this refer icon on the homepage, users can view and copy their referral link. And each user's refer link will be generated differently.
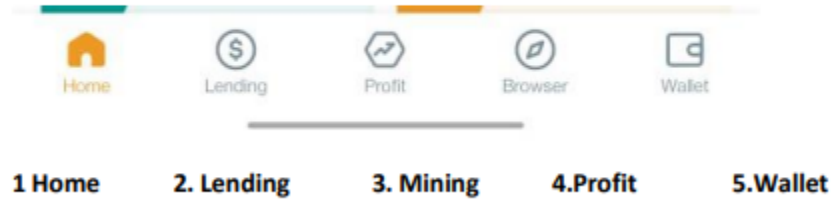

4) General App Below Icons:

Take a look at the image that is attached below for a reference; it displays the icons for the home, lending, profit, browser, and wallet.
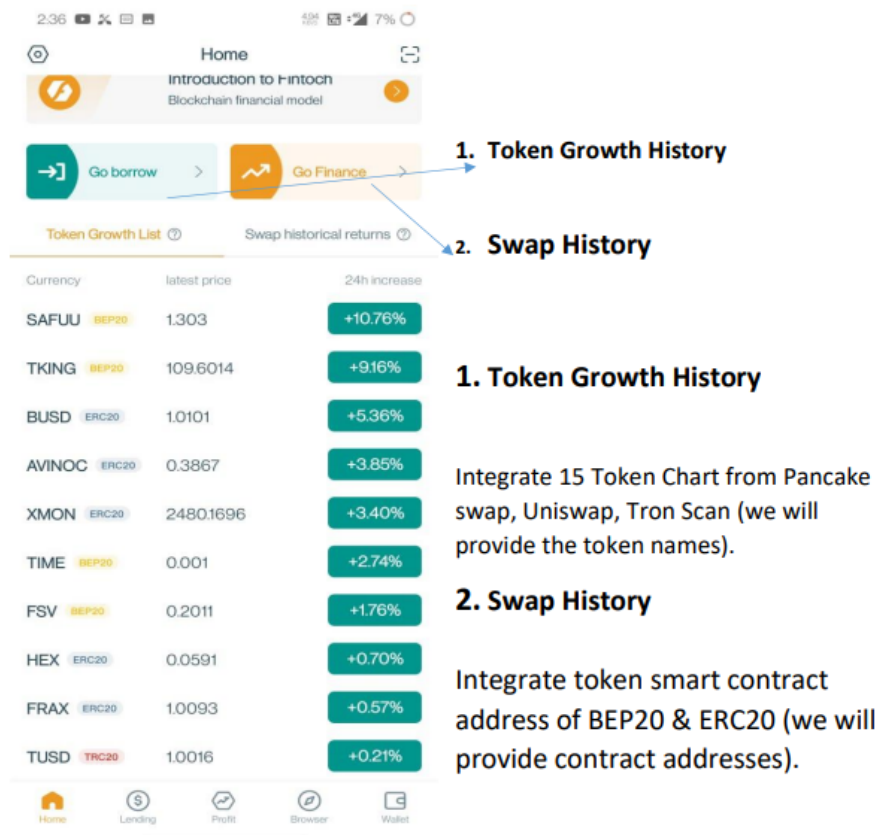

And We have to remove these icons - home, lending, profit, browser, and wallet .

Here we must update these icons - home, lending, mining, profit, and wallet.

Menu

| Home | Lending | Profit | Browser | Wallet |

1 Home   2. Lending   3. Mining   4.Profit   5.Wallet

5) Homepage Below Icons:

First, replace the word from "**Go borrow**" to "**Token Growth History**".
Second, replace the word from "**Go Finance**" to "**Swap History**".

5.1) Token Growth History - If a user clicks a token then that particular token chart in the exchange view will be displayed. Need to integrate the coin chart using pancake API for the below mentioned Crypto Tokens:

1. ACH
2. ADA
3. ADX
4. Chess
5. Cyc
6. Doge
7. EDU
8. FIL
9. HFT
10. IOTX
11. LIGHT
12. MASK
13. NFT (APE NFT)
14. OLE
15. PEAK

5.2) Swap History - If a user clicks on a token, then we need to display the transaction details. So, we need to integrate Token smart contract address for the below mentioned tokens:

Si.No	Contract Address	Token Ticker
1	0xAC51066d7bEC65Dc4589368da368b212745d63E8	Alice
2	0x8fF795a6F4D97E7887C79beA79aba5cc76444aDf	BCH
3	0x101d82428437127bF1608F699CD651e6Abf9766E	BAT
4	0x67ee3Cb086F8a16f34beE3ca72FAD36F7Db929e2	DODO
5	0xe2604C9561D490624AA35e156e65e590eB749519	GM
6	0xa260E12d2B924cb899AE80BB58123ac3fEE1E2F0	HOOK

13	0x7af173F350D916358AF3e218Bdf2178494Beb748	TRADE
14	0x1D229B958D5DDFca92146585a8711aECbE56F095	ZOO
15	0x6FDcdfef7c496407cCb0cEC90f9C5Aaa1Cc8D888	VET

6) Lending:

2. Lending

**Integrate Lending Option same as Fintoch.
Integrate
BSC,Tron,Etherium Chains.**

Apply Lending.

First, replace the word from "**Grab it Now**" to "**Apply Lending**".
Second, Need to integrate **USDT** 3 blockchains Networks - **TRON, BSC and ETH**.
Third, without deposit lending won't work.

6.1) Lending MLM Plan:
Lending Minimum investment 100 Dollar.
Multiples of 100 Dollars (100, 200, 300, 400, 500 ….).
Top Up Plans (100, 200, 300, 400, 500 …. Multiples of 100).

Note: The Packages of Mining and Lending alone is different, and here the plan and Level incomes are the same for both.

6.2) Lending MLM Level Plan:
1 st level = 15% of (Mining,lending,staking)-
2 nd level = 10% of (Mining,lending,staking)-
3 rd level = 5% of (Mining,lending,staking)-
To enable level income the user needs to refer/place 2 direct users to his downline.

Note: Here, users can refer and place two directs either in Lending plan or in Mining plan. Anyways users only have to place two directs in any of these Mining or Lending plans to make himself eligible for the 3 Level incomes.

Users will receive level incomes daily from their referrals as a daily income from their referrals Mining Income Portion.

In the Admin panel we have to create three separate boxes for Daily Mining, lending, Staking income. Lending, and Staking income percentages of 0.4% and 0.2% should have the dynamic percentage change option in the admin panel:

0.6% Of lending investment credit to
a) 0.4% credited to lending wallet.
b) 0.2% credit to staking wallet.

6.3) Deposit - Users can deposit the cryptos either by scanning the QR or by copying their deposit address.

6.4) Withdraw - If the user clicks the /withdrawal means then the Lending income will be sent to the site's default wallet. After receiving the lending income to the site's default wallet. We can perform withdrawals from the site's default wallet to our wallet like the trust wallet. Minimum withdrawal and withdrawal fees can be changed/updated by the admin from the admin panel.

7) Mining:

Minimum investment 1500 Dollars.
Accumulation 1500 Multiply (1500, 3000, 4500, 6000 etc ….…..)
Top Ups 1500 Multiply (1500, 3000, 4500, 6000 etc …..….)
Minimum withdrawal and withdrawal fees can be changed/updated by the admin from the admin panel.
Business plan is the same as lending (mentioned above).
Note: The Packages of Mining and Lending alone is different, and here the plan and Level incomes are the same for both.

7.1) Mining MLM Plan:
1 st level = 15% of (Mining,lending,staking)-
2 nd level = 10% of (Mining,lending,staking)-
3 rd level = 5% of (Mining,lending,staking)-
To enable Level income the user needs to refer/place 2 direct users to his downline.

Note: Here, users can refer and place two directs either in Lending plan or in Mining plan. Anyways users only have to place two directs in any of these Mining or Lending plans to make himself eligible for the 3 Level incomes.
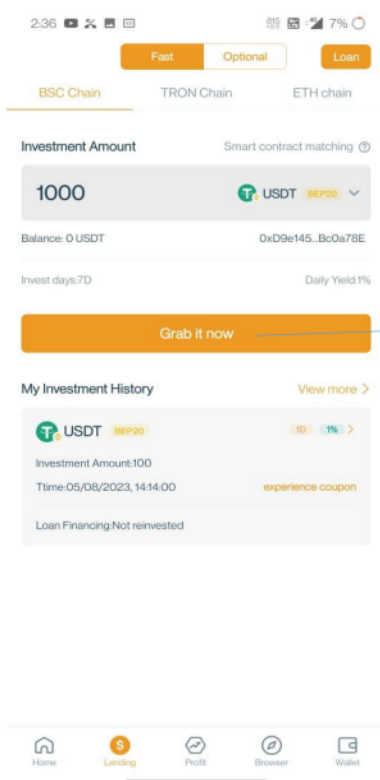

Users will receive level incomes daily from their referrals as a daily income from their referrals Mining Income Portion.

In the Admin panel we have to create three separate boxes for Daily Mining, lending, Staking incomes. Mining, and Staking income percentages of 0.4% and 0.2% should have the dynamic percentage change option in the admin panel:

0.6% Of Mining investment credit to
a) 0.4% credited to Mining wallet.
b) 0.2% credit to staking wallet (we need to insert coin price from admin).
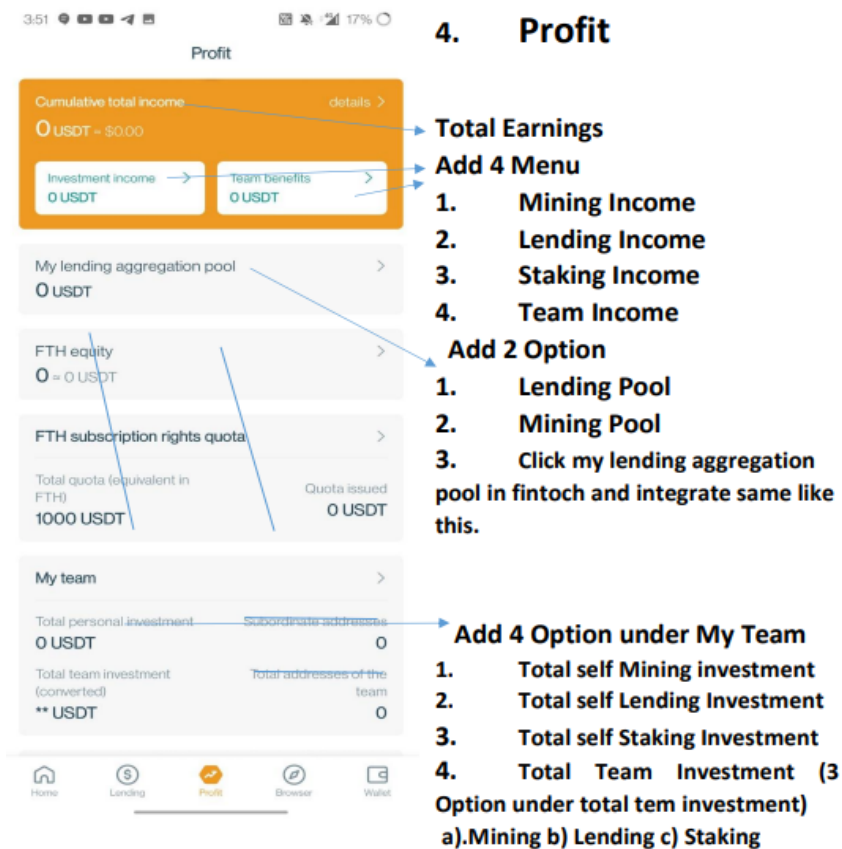

3. <u>**Mining**</u>

<u>**Apply Mining**</u>

All option are same as lending but investment plan is different (we shall produce below in MLM plan pdf).

Mining page design will be the same as Lending, But the Mining MLM plan and Lending MLM plan are different.

8) Profit:

First, replace the word from "**Cumulative Total Income**" to "**Total Earnings**".
Second, remove the **"investment income** and **team benefits"** section and add **four new** sections which are "**Mining income, Lending income, Staking income** and **Team income**".
Third, remove the **"My lending Aggregation Pool"** section and add **two new** sections which are "**Lending Pool** and **Mining Pool**".

8.1) Total Earnings - User's total earnings that are generated from Mining income, Lending income, Staking income and Team income will be displayed in this section.

8.2) Mining Income - Users total earned income via Mining income will be displayed here in this section.

8.3) Lending Income - Users total earned income via Lending income will be displayed here in this section.

8.4) Staking Income - Users total earned income via Staking income will be displayed here in this section.

8.5) Team Referral Income - Users total earned income via Team referral income will be displayed here in this section.

8.6) My Team - This section will have teams Mining, Lending, and Staking income details.

8.6.1) Team Mining income - The user teams total Mining income will be displayed here.

8.6.2) Team Lending income - The user teams total Lending income will be displayed here.

8.6.3) Team Staking income - The user teams total Staking income will be displayed here.

8.7) Today Total Earnings - Users' today earnings of Mining Income, Lending Income, Staking Income are displayed everyday here.

8.7.1) Mining Income - Users' today Mining Income are displayed in this section.

**8.7.2) Lending Income -** Users' today Lending Income are displayed in this section.

8.7.3) Staking Income - Users' today Staking Income are displayed in this section.

8.13) Total Level Income - The users total generated level income will be displayed here on this section.

8.14) Total Royalty Income - The users total generated royalty income will be displayed here on this section.
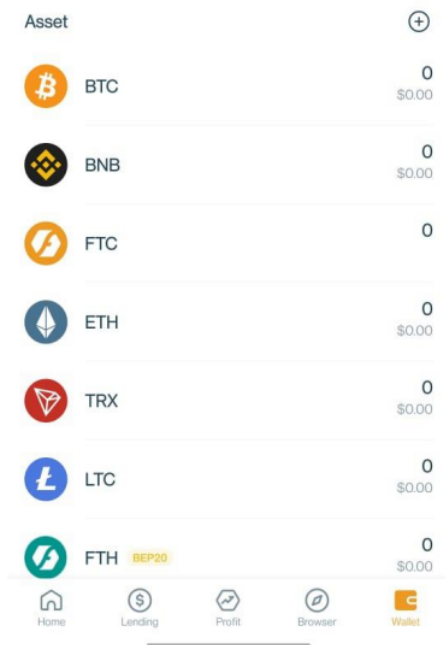

9) Wallet:

We have to Integrate the trust wallet API.

5.Wallet

Integrate wallet option same as Fintoch but integrate 10 to 15 Coins Through API and rearrange all the options and colors mentioned on the Fintoch.

10) Royalty Bonus Criteria:

Total Investment (Dollar)	Rank/Pool	Daily Royalty Income (Dollar)
12,500	1	12.5
25,000	2	25
50,000	3	50
1,00,000	4	100
2,00,000	5	200
5,00,000	6	500
10,00,000	7	1000
50,00,000	8	5000

Note:
1) Total lending, and mining Investment made by a user's downline from all of the levels **(Unlimited levels)**, are considered as Total volume of business.
2) Suppose if any downline user achieves the same rank as the leader means, then the leader will only receive 20% of royalty income from the newly royalty income achieved user.
3) The user will no longer be qualified to get royalties. If they have not done any business (investment) by themselves, or by their team downline for the past six months.
